CAREER OBJECTIVE

Computer Science undergraduate with hands-on experience building AI-powered, full-stack web applications using Java, Python, JavaScript, React.js, Node.js, Express.js, MongoDB, REST API, and FastAPI. Seeking a Software Engineering Internship to design and develop scalable software, apply data structures and algorithms, and contribute to high-impact engineering teams through strong problem-solving and collaborative development.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, FastAPI, REST API

Databases: MongoDB, MySQL, Firebase Firestore

Developer Tools & Platforms: Git, GitHub, VS Code, Postman, Figma, Firebase, Cloudinary, Vite

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, System Design

Soft Skills: Problem Solving, Teamwork, Communication, Adaptability, Time Management

PROJECTS

CareLens – AI-Powered Maternal & Fetal Health Prediction Platform **Ongoing**

Python, FastAPI, Scikit-learn, TensorFlow, Pandas, React.js, MongoDB, REST API

- Building an end-to-end web app for maternal and fetal health risk assessment, featuring pregnancy risk prediction, fetal health classification, and an interactive health dashboard.
- Developing a Pregnancy Risk Prediction module that analyzes parameters like age, blood sugar, and blood pressure to predict potential pregnancy risks using ML algorithms.
- Implementing Fetal Health Classification using Cardiotocogram (CTG) data to help healthcare professionals detect risks early and reduce child and maternal mortality.

Custom-Git-CLI (mygit) – Git-Style Version Control System **Jul 2026 – Aug 2026**

Node.js, JavaScript, Crypto (SHA-1), Zlib, Content-Addressable Storage, CLI Development · github.com/harekamk/custom-git-cli

- Built a Git-style version control CLI from scratch in Node.js, implementing content-addressable object storage with SHA-1 hashing and zlib compression for blobs, trees, and commits.
- Engineered core version-control commands (init, add, commit, status, log, branch, checkout, cat-file), replicating Git's staging area, commit history, and branching/checkout workflows.
- Designed a custom reference and HEAD-tracking system enabling snapshot creation, history traversal, and branch switching independent of native Git internals.

MediTrack – Intelligent Medication Management Platform **Mar 2026 – May 2026**

React.js, Vite, Tailwind CSS, Node.js, Express.js, MongoDB, Mongoose, JWT, Firebase, TomTom API, Cloudinary, Twilio, Nodemailer, Node-Cron, Recharts, REST API

- Developed a full-stack MERN medication-management SaaS application with 10+ features, including automated dose reminders, expiry tracking, Smart Refill+, and a nearby-pharmacy locator using the TomTom Places API.
- Engineered secure REST APIs and JWT-based authentication for user dashboards, with medication adherence analytics visualized using Recharts.
- Implemented automated notification workflows with Node-Cron, Twilio SMS, and Nodemailer alerts, integrating Firebase and Cloudinary for real-time data sync and image storage.

VibecheckLocal – AI-Powered Civic Issue Reporting Platform **Dec 2025 – Feb 2026**

React.js, Node.js, Express.js, MongoDB, Mongoose, Leaflet, Chart.js, Tailwind CSS, Appwrite, Cloudinary, OpenRouter AI, OpenCage Geocoding API, Razorpay

- Built a full-stack civic-issue reporting platform enabling citizens to report GPS-tagged local issues such as potholes, broken streetlights, and sanitation problems, using React.js, Node.js, Express.js, and MongoDB.
- Integrated OpenRouter AI for automated issue categorization, OpenCage Geocoding API with Leaflet for interactive map visualization, and a Chart.js analytics dashboard to track and monitor reports.
- Implemented Appwrite authentication, Cloudinary image handling, community voting to prioritize issue resolution, activity/audit logging, and a Razorpay test payment gateway for community crowdfunding.

EDUCATION

B.E. in Computer Science, Chitkara University **2028**

CGPA: 9.43/10
